WHAT MOTIVATES ME

The youth from all around the world share the same concerns and the passion for the environment and a safer peaceful world.

I Simran Vedvyas, a responsible youth holding over a dozen portfolios with key International Organizations believe that the only thing that has changed the world is Inspiring and determined Individuals. In my opinion, *“We are responsible for what we are, and whatever we wish ourselves to be, we have the power to make ourselves. If what we are now has been the result of our own past actions, it certainly follows that whatever we wish to be in future can be produced by our present actions; so we have to know how to act by not looking back upon what has been done but by going ahead”*

I stress that- *“We need to act now- We need to share our knowledge- We need to formulate knowledge into wisdom – We need to move forward together and above all ...We need to deliver the vision”*
