INSTITUTE

WE ARE ONE HUMANITY

OHI is a **solutionarium** to **attract, educate, and inspire people** to translate universal values that generates **global harmony and sustainability**.

The Institute will cultivate a **vision of one humanity joining together** to embrace our **deep spiritual connection** for social changes.

ONE HUMANITY VISION: **THE CITY OF HOPE**

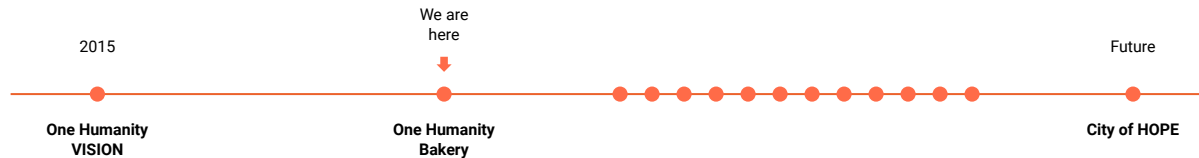

The **One Humanity Institute (OHI)**, is a non-profit charitable foundation, established in 2017 in the US as a 501c3, and also in Poland. Our intention is to create an experiential and transformative campus of learning and cultural exchange next to Auschwitz. It will be called City of Hope and will provide a visionary, experiential and tangible safe place where people can meet, collaborate and practice creating a socially just and peaceful world.

ONE HUMANITY BAKERY

One Humanity Bakery is the first milestone of OHI vision.

It will be located in the historic old city center of Oswiecim in a building donated by a second generation survivor - Haim Horowitz - which was originally his family home and a bakery. Co-working space, innovation hub, library with honorary bakery for the community's local youth and the many visitors, will also act as a project prototype/MVP for One Humanity Institute.

WHAT MAKES THE **BAKERY DISTINCTIVE**

It will serve as a catalyst for Oswiecim to release the city from the shadow of Auschwitz and help to transform it into an instrument of peace. The people from Oswiecim will be able to 're-member' themselves into a prosperous life, lifting their future opportunities. OH Bakery experience will be a symbol of creating a thriving global community that illustrates our highest potential.

The Bakery will be able to create substantial economic impact on the town of Oswiecim and attract visitors from all over the world.
